Distribution Date: 6/16/21

Loon Lake will be treated with ProcellaCOR and Aquathol K Aquatic Herbicide on or about June 28th— July 9th, 2021, and another one or two rounds of ProcellaCOR Aquatic Herbicide Treatments will occur July 12th—August 20th, 2021, weather permitting. Up to three applications are planned. Please refer to the website listed on the front of this postcard for most up to date treatment information.

Treatment(s) will not take place on weekends or Holidays.

Product(s) planned for use: ProcellaCOR EC, Aquathol K

Active ingredient(s): Florpyrauxifen-benzyl, Dipotassium salt of Endothall

Plants/Algae targeted: Nuisance and Invasive aquatic plant; Eurasian watermilfoil, Curly Leaf Pondweed

Location of treatment(s): Loon Lake

The applicator will post signs in the treated and potentially affected areas no more than 48 hours prior to treatment. The signs will describe any water use restrictions or advisories.

If you are withdrawing water for potable or domestic water use, livestock watering, or irrigation, and have no alternate water source, please contact AquaTechnex at (509) 960-8133 to arrange an alternate water supply.

If you want additional notification prior to treatment, or have further questions, please contact AquaTechnex using the information above.

This herbicide treatment is regulated under a permit issued by the Washington State Department of Ecology. Permit No. WAG994097
